CAREER OBJECTIVE

Aspiring Computer Science undergraduate specializing in Data Analytics, aiming to secure a Software Development or Data Science internship to apply knowledge in full-stack development, Python, SQL, and data-driven problem solving.

Passionate about building scalable web applications, solving real-world challenges, and contributing analytical thinking and technical skills to innovative software projects.

Seeking opportunities to learn from industry experts, work on impactful technologies, and grow as a responsible software professional.

EDUCATION

B.Tech in Computer Science with Specialization in Data Analytics
Vellore Institute of Technology, VIT-AP University, Amaravati
Cumulative CGPA: 8.32/10

Sri Chaitanya Junior College — Class 12
Percentage : 94.6%

RIDGE PUBLIC SCHOOL — Class 10
Percentage : 97%

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, R
- **Databases:** SQL, NoSQL, MongoDB
- **Web Development:** HTML, CSS, React.js, Node.js, Express.js
- **Data Analytics:** Exploratory Data Analysis (EDA), Data Visualization
- **Cloud & Platforms:** AWS (EC2, S3, IAM, Cloud Concepts)
- **Tools & Concepts:** Git, REST APIs, JWT Authentication
- **Languages:** English, Telugu, Hindi, Kannada

PROJECTS

SoundPulse — Music Streaming Analytics

• Built a music streaming analytics platform analyzing 8,000+ events across 97 users, 5,100+ songs, and 3,100+ artists.

• Developed 10+ complex SQL queries using Window Functions, CASE WHEN, joins, and aggregations to generate engagement, popularity, and monetization insights.

• Created an interactive analytics dashboard with KPIs, song listener analysis, monetization insights, and live SQL query execution.

• **Tech Stack:** SQL, HTML5, CSS3, Chart.js, Git, Render

Healthcare Data Analysis (HMIS Dataset)

• Cleaned and transformed healthcare datasets using **Excel** and **Python**, improving data quality for reliable downstream analysis.

• Performed Exploratory Data Analysis (EDA) using **Pandas**, **Matplotlib**, and **Seaborn** to identify trends, patterns, and healthcare indicators.

• Developed visual reports and analytical insights to support healthcare planning and data-driven decision-making.

• **Tech Stack:** Python, Pandas, Excel, Matplotlib, Seaborn, Data Cleaning, EDA
